Interests

Augmented creativity: photo editing, video editing and illustration (Lightroom, Premiere Pro, Illustrator) enhanced by generative AI tools such as Firefly to enrich my creative process.

Sporting passion: 10 years of competitive tennis and a strong interest in outdoor activities such as mountain biking, climbing, hiking and skiing.

Connected devices: passionate about photography, drones and action cameras.

BENJAMIN BALAYRE

STUDENT IN ENGINEERING SCHOOL

Currently specializing in Business Intelligence, with strong international and associative experience, I explore how data and AI can be used to create innovative solutions combining technology and creativity. I also work as a freelance photographer and videographer.

Education

- **ISEP – Graduate School of Engineering | 2021–2026**
Digital Engineering School
Business Intelligence track: machine learning, deep learning, big data, entrepreneurship and web development.
- **OsloMet – Oslo Metropolitan University | Aug 2025 – Dec 2025**
International semester in Oslo, Norway
Participation in the European Project Semester (EPS), a program focused on international collaboration and innovative project development.
- **INHA University | Feb 2023 – June 2023**
International semester in Incheon, South Korea
I followed courses in leadership and technical project management, systems and sensors, electrical circuits, systems programming and Korean language (beginner level).

Experience

- **Consulting Intern – Capgemini Invent | Jan 2026 – June 2026**
Frog Customer Data & Tech
 - Design of innovative strategies and support for large-scale digital transformation
 - Consulting missions for executive teams on strategy, organization and operational efficiency
- **Data Analyst Intern – Sidetrade | Sep 2024 – Jan 2025**
Datalake Ingest Team
 - Data lake analysis and creation of strategic dashboards using Power BI
 - Collaboration with R&D and Product teams in an English-speaking environment
- **Freelance Photographer & Videographer | Since 2024**
 - Production of photo and video content for events and professional projects
 - Full client relationship management

Associations

- **ISEPLive – President | 2022–2025**
School media association: photo reports and video production for official and student events.
- **ISEP Drone – President | 2021–2024**
Founding member and president of the FPV drone club.
- **ISEP Student Office | 2023–2024**
Creation team member: visual identity and social content design.
