

BENJAMIN BALAYRE

Strategy & Transformation Consultant | Data, Business Intelligence & AI | Freelance Web Developer
Paris, France | +33 7 82 34 76 44 | benjamin@balayre.com

PROFILE

Engineering graduate from ISEP (class of 2026), specialised in Business Intelligence, with two semesters abroad in Oslo and Incheon. I work on data and AI use cases in consulting, and I have run a freelance business in web development, photography and video since 2024.

PROFESSIONAL EXPERIENCE

Strategy & Transformation Consultant, Capgemini Invent | From September 2026 | Issy-les-Moulineaux, France

- Strategy and transformation consulting for large corporate clients.
- Focus on data, business intelligence and artificial intelligence.

Consultant Intern, Capgemini Invent (Frog Customer Data & Tech) | January - June 2026 | Issy-les-Moulineaux, France

- Designed digital transformation strategies and supported their rollout at scale.
- Advised executive teams on strategy, organisation and operational efficiency.
- Ran a study on generative engine optimisation (GEO) and agentic commerce.

Data Analyst Intern, Sidetrade (Datalake Ingest team) | September 2024 - January 2025 | Boulogne-Billancourt, France

- Analysed datalake data and built strategic dashboards in Power BI.
- Worked with the R&D and Product teams in an English-speaking environment.

Founder and Freelancer, Benevolence (web development, photography, video) | Since 2024 | Paris region, France

- Rebuilt the website of Seed4Soft, a French business angel network: design, development and production release (Next.js, Tailwind CSS, GSAP).
- Built custom websites and web interfaces for independent and non-profit clients.
- Produced photo and video content for events and professional projects.
- Handled the full client relationship, from quoting to delivery.

EDUCATION

ISEP, Graduate School of Digital Engineering, MSc in Engineering | 2021 - 2026 - Business Intelligence track: machine learning, deep learning, big data, entrepreneurship, web development. Paris, France.
